### Solid sale in uncertain times

Given the current market environment and need for rain in some areas results out of Taupo today were pleasing as locals and buyers from the King Country rolled up their sleeves and got stuck in. While dairy-beef easily dominated in volume a consignment of 50 yearling Angus & Angus Hereford steers plus autumn-born Angus-cross weaners were a bit of a treat for buyers.

Two pens of three-year Angus-Friesian steers, 509-568kg, made respectable values at \$2.73-\$2.85/kg. True-to-type two-year Hereford-Friesian steers had a good following and those 419-465kg sold for \$3.02-\$3.13/kg, while a heavier line at 476kg made \$2.98/kg.

Traditional yearling steers easily made a premium as a line of Angus, 279kg, returned \$3.94/kg and Angus-Hereford, 252-255kg, \$4.00-\$4.05/kg. No other lines came close to that level.

The biggest section of the day was the yearling heifers, with just over half Hereford-Friesian and much of the balance dairy-beef crossbred. Weights were very consistent for the Hereford-

Friesian lines with five weighing 260-267kg, but it was interesting to note some selective bidding with two of those lines making \$2.96-\$2.99/kg, while the remainder were lesser bred types which earned \$2.62-\$2.68/kg. Heavier types sold for \$780-\$830, \$2.85-\$2.88/kg, while the lighter end lifted slightly on a \$/kg basis and so per head price ranges were fairly tight. Good crossbred lines, 240-265kg, traded at \$2.64-\$2.71/kg. Two good pens of autumn-born heifers were also offered and Angus-Friesian, 349kg, fetched \$2.82/kg and 316kg, \$3.18/kg.

Bulls sold to expectations as quality was mixed. One line of Friesian, 235kg, managed \$3.04/kg.

A feature in the weaner pens was a consignment of autumn-born Angus-cross cattle. These were nice types and the steers found good competition as 294-296kg sold for \$1010-\$1020, \$3.41-\$3.47/kg. Bidding was more subdued on the heifers and they sold for \$640-\$815 for 197-265kg, while Hereford-Friesian, 151-181kg, returned \$535-\$610.
