Feed levels through the Taupo region are chalk and cheese, with some areas very dry, while others are flush with grass. A yarding of just over 500 cattle were offered, though 478 sold, with results mixed and some lines not meeting expectations. Buyers were mainly those locals with feed to spare, and a drawcard was a top quality line up of 2 1/2yr Angus and Ang & AH steers and heifers. The steers sold well, with Angus, 508kg, making \$2.83/kg,

(cont) and vendors were happy with the heifer results at \$980-\$1270. The 1-year market was harder going, though steer and heifer numbers came forward in small lines with few available. Jersey bulls filled most of the pens, and at 335-366kg, sold for \$640-\$730 to hover around \$2/kg. Weaner prices still showed good strength given the lateness of the season, and Friesian bulls, 110-160kg, sold for \$450-\$530, while Here/Frx heifers, 109-149kg, traded at \$390-\$470.
