\$4.67

Weaner bulls were offered on a separate day to the steers and heifers, and the undeniable success of the sale meant that it looks set to become an annual event. Friesian by far dominated the yarding, and lines were a credit to their vendors. Good sized lines, as well as the quality and number offered attracted a big buying bench, with a large number of agents in attendance, and purchasing for those on the East Coast, Wairarapa, and even Northland played a part. Local buyers were not left out however, and a few more lines could easily have been absorbed. Exactly a year on since the last sale, and the smaller outlay associated with the younger bulls lifted demand, and in turn the market two-fold, compared to 2016 levels. The lighter the Friesian calves, the bigger the gap with last year's prices, with 140-141kg lines up \$115-\$125 to \$670, while 148-152kg lifted \$100-\$110 to \$682-\$710, and 190-203kg were up \$65 to \$755-\$825. Very few Friesian lines sold below \$590 as buyers looked to work to reasonable per head budgets.
