## Respectable returns for some cattle

to entice a few more buyers to the market, though traditionally bred cattle stood on their own merits. While they traded on a softer market than the last sale, they still made very respectable returns, supported by almost an entirely local bench of buyers. The same was noted for the better-bred dairy-beef, though it was a buyer's market for any lesser bred types and a few lines of weaner dairy-beef headed

Two-year volume was low and the pick was a pen of nine Angus steers, 506kg, \$2.91/kg.

Yearling cattle accounted for over half of the yarding and traditional steers, 222-284kg, were still able to reach \$3.17-\$3.27/kg which was not bad going, but was a discount of 45-

Good grass levels were not enough  $\,$  50c/kg on a month ago. Outside of the top pens of steers most varied from 2.80/kg to 3.09/kg though some had some good weight to them.

> The yearling heifer section was a feature and a pen of 23 Angus, 256kg, matched the steers at \$3.17/kg while Angus-Hereford, 283kg, dropped off to \$2.83/kg. Beef-Friesian, 249-296kg, varied from \$2.63/kg to \$2.85/kg and included a consignment of 50 Angus-Friesian, pictured on page 2. One big line of Hereford-Friesian bulls, 327kg, was streaks ahead of the rest at \$2.98/

> Vendors of weaner cattle met the market and Angus-Friesian steers, 131-132kg, sold for \$400. Friesian bulls, 107-109kg, dropped to \$355-\$360 compared to last sale where most made \$410.
